

The traditional gambling industry faces many challenges on multiple fronts, one such front is the online gambling market. This market can provide many opportunities and success to casino owners, however, running an online casino can be extremely expensive and complex and these risks often worry ambitious online casino owners. Our company GlobeCas, holding the UK Gambling Commission License, rises in response to these worries and provides a full solution.

## Challenges

### LAND-BASED CASINOS

- Geographical restrictions
- Client source restrictions
- Lack of experience to run an online casino
- Shift in consumer gambling habits
- High cost in developing an online casino
- Online gambling licensing issues

## Solutions

GlobeCas has the answer to these problems and provides to help many land-band casinos need to make the successful move into the online gambling space. This is achieved by:

- Building an integrated casino platform
- Allowing land-based casinos in our network to livestream real-time dealing games
- Covering the licensing and compliance issues by our UK Gambling Commission Operating License
- Providing the initial equipment setup, gambling software, customer services and technical support package services
- Changing the traditional payment methods which can be complex, expensive and time-consuming
- Standardizing deposit and withdrawal methods by using our own cryptocurrency GCT
- Strengthening and diversifying the platform with Poker, RNG games, slot machine and sportsbook
- Enhancing the quality of the entire gambling industry
